

# Custom Fencescaping

Presidential Line of Custom Cedar Wood Fencing

# Welcome!

---

The Presidential Line of custom wood fencing offers the warmth and charm of nature that can be achieved only by the use of natural white and red cedar. Cedar is a time-honored choice of wood, whether you allow it to age to a natural silver, stain it one of the several colors available in today's market, or prefer to add a protective clear finish. Most fence styles are made with 1" x 4" lumber. 1" x 6" is available upon request.

We design and manufacture over 50 styles of cedar fencing with unlimited combinations to fit every taste and space, large or small. Most orders are custom-made, offering you the ability to complement your home's landscaping and architectural design. All styles can be made with specific rail and picket spacing to meet your local pool code specifications. Many of the styles are available in a variety of configurations, as shown below. You are limited only by your imagination!

In addition to cedar fencing, we also design and manufacture over 30 styles of PVC fencing, and can recreate all styles out of low maintenance Cellular PVC. Ask our sales staff for information.

## Fence Configurations

Below is a diagram of the many configurations available.

## Installation Techniques

Fencing can be installed using several different methods. The following illustrates each method. Please note that not all fencing styles are suitable for racking.

# An Introduction

## Adams

If a more robust 1" x 4" picket is what you are looking for, look no further! Adams is a terrific choice to delineate any border or area. Pictured at left is Adams Straight, and in the inset is Adams Cathedral.

## Carter

Carter features a picket with a large round top which can either be left as is, or routed with a hole. Available in both 1" x 4" or 1" x 6", you can customize the look to your liking. Shown in the inset is Carter 1" x 6" with hole. The large pictures show Scalloped Carter 1" x 4" without the hole, which looks beautiful stained white.

## Coolidge

Coolidge is a unique combination of flat-top 1" x 2" pickets and round-top 1" x 4" pickets. This beauty can enhance any landscape, whether commercial or residential. Shown left and in inset with 1" x 6" pickets, which are also available.

## Ford

A beauty in any height, Ford can be made in straight, cathedral or scallop style to meet your particular taste and need. Shown at far right in a straight configuration with a cathedral gate and modified 1" x 6" pickets, and in the inset made with 1" x 4" pickets, which is standard.

# Custom Cedar

Spaced Picket Fence

## Garfield

With alternating gothic pickets. Garfield offers privacy with an open feel. Scal-loped option shown left, taper shown in inset.

## Hayes

The keyhole pattern to this vintage 1" x 4" picket is reminiscent of traditional times. Hayes is shown straight in the photos at right, but is equally as pleasing in its scalloped or cathedral configuration.

## Harding

Harding features a 1" x 4" spaced picket with a decorative routed top. This style is also an excellent choice whether you choose straight, scallop or cathedral configuration.

## Jefferson

Jefferson is a traditional dog-ear spaced picket. Simple and elegant. Choose straight, scallop, or cathedral, or a combination. At right is Jefferson straight down the side of the home, with Jefferson scallop across the front. Inset shows detail of Jefferson straight.

# Custom Cedar

## Taylor

Taylor is the best-selling picket. This gothic 1" x 4" spaced picket is a best-seller. It looks equally as beautiful stained, or left to weather to a silver gray. Both photographs at left show Taylor straight, but it's an equally good choice in cathedral or scallop, as well.

## Truman

Truman offers 1" x 2" flat top pickets alternating with 1" x 4" shaped top pickets. The combination results in a distinctive looking fence line. Choose scallop or cathedral for a different look.

## Wilson

Wilson offers the same 1" x 4" shaped top pickets as seen in Truman, without the 1" x 2" flat-top spacers in between. Shown far left in a straight configuration, and in the middle photograph as a scallop.

## Spaced Picket Special Sections

Add flair to your spaced picket fence by adding a decorative accent. For example, pair a straight fence with a cathedral or scallop gate. Or accent your property with a taper entryway.

## Kennedy Straight

Undoubtedly our most popular custom style, this beautiful Victorian picket fence is available in all configurations, from straight to staggered. When stained in multiple colors, a dramatic effect can be achieved, as shown left.

When sealed natural, or left to weather, it is equally as beautiful, as shown in the inset. Kennedy is available with clear red cedar 2" x 2" pickets, or in an economy version of northern white cedar with 1"x 2" pickets or 2" x 2" pickets.

## Kennedy Staggered

Kennedy Staggered (shown stained gray at right, and stained white in the inset) is achieved by staggering alternating pickets for a new twist on a vintage classic.

## Kennedy Capped

Kennedy Capped is a popular style, not only for fencing, but also for pool enclosures. This style can also be used as deck rail. Either way, it is a durable, attractive choice for any landscape.

## Kennedy Capped & Staggered

Combine the best of both worlds...Kennedy Capped and Staggered has alternating staggered pickets with a capped top. This style enhances any landscape, and is also great for pool enclosures.

# Custom Cedar

## Kennedy Scallop

Kennedy Scallop (shown with our heavy cedar arbor) is our most popular Kennedy configuration. The soft flow of the scalloped pickets makes this fence an attractive centerpiece for any landscape. Inset shows the beautiful result of 2-tone staining.

## Kennedy Stepped

Kennedy Stepped is the perfect accompaniment to any property. The picture at right shows stepped outer sections combined with straight middle sections for a beautiful effect. See inset for details.

straight middle sections for a beautiful effect. See inset for details.

## Kennedy Radius

The Kennedy Radius can be used for numerous projects such as accenting gardens, surrounding

mature trees that fall within a fence line, or simply as a dramatic entry centerpiece. Whatever the use, the result is always stylish. Available in all configurations.

## Kennedy Special Sections

Kennedy is such a popular style that we often get requests to accommodate our customer's needs by creating special sections. Here are just a few samples. Shown left to right: Kennedy Cathedral, Kennedy Gate with drop curve rail, Kennedy Sweep, Kennedy Cathedral Gate.

# Custom Cedar

Red Cedar Spaced Picket Fence 7

## Bush

Bush is a double-sided fence style which features horizontal rails on either side. This “neighbor-friendly” design is popular in any configuration. Features rounded spaced pickets. Bush straight is shown at left made with 1” x 4” pickets.

## Reagan

Reagan offers the same double-sided features as Bush, but in pointed spaced pickets. Adds traditional elegance to “both sides of the fence.” Shown straight in 1” x 4” pickets.

## Pierce

Pierce offers a double-sided bottom panel with a decorative cutout top. Cutouts come standard in diamond pattern, as shown. Requests for custom patterns such as shamrocks, hearts and anchors can also be accommodated. Pierce is available with or without tongue-in-groove construction.

## Fillmore Specialty Sections

Fillmore can also be ordered with custom toppers, or in special configurations. See the custom topper section for our

complete selection of toppers available. Fillmore is available with or without tongue-in-groove construction. Shown from left to right: Fillmore with Lattice Topper, Fillmore Cathedral, and Fillmore Sweep.

# Custom Cedar

## Fillmore

Fillmore has become such a popular fence style, that it is offered in several configurations as part of our regular line. It comes standard as pictured, with a midrail. Fillmore is available with or without tongue-in-groove construction, and with 1" x 4" or 1" x 6" vertical boards. Note: Sections without tongue-in-groove require a midrail. Sections with tongue-in-groove don't require a midrail.

## Fillmore without Midrail

Fillmore can be special ordered without the midrail (not required with tongue-in-groove). When removed, an entirely different, yet equally beautiful look is achieved. Fillmore without Midrail offers a solid double sided fence panel. This is the ultimate in privacy and security. Inset shows Cedar Pergola with Fillmore Scallop gate.

## Fillmore Crown

Fillmore Crown is a solid double-sided section with a crown top, as shown right in the drawing and left in the photographs. Note: Sections without tongue-in-groove require a midrail. Sections with tongue-in-groove don't require a midrail.

## Fillmore Scallop

Fillmore is also available with or without the middle rail, in Scallop configuration. Image to the left shows a line drawing without the midrail, while the photographs to the right have the midrail. Both are very attractive fence panels. Note: Sections without tongue-in-groove require a midrail. Sections with tongue-in-groove don't require a midrail.

# Custom Cedar

Double-Sided Fence

## Buchanan

Buchanan features 1" x 4" dog-eared boards (pictured right), giving the fenceline a very dramatic

look. This single-sided style easily enhances any property, while adding privacy. The pictures at left show scallop Buchanan with optional routed edge pickets, and 1" x 6" boards, all of which are available.

## Harrison

Looking for something a little different? Alternating slant pickets, combined with flat top pickets, result in our Harrison style single-sided fence. A true beauty in any height.

## Johnson

This variation of the Van Buren style adds a more formal look to a landscape. Johnson offers 1" x 4" boards. Shown at left, both stained and unstained. The unstained option weathers to a natural silver grey (shown in inset).

## Nixon

Nixon features 1" x 4" or 1" x 6" round top boards. Available in Straight, Scalloped or Cathedral configuration (shown here).

# Custom Cedar

## McKinley

The eye-catching whimsical pattern of McKinley makes this one of our more popular choices.

## Polk

Polk features pointed pickets alternating with flat top pickets. An excellent choice for a single-sided privacy fence.

## Tyler

Tyler is similar to Harrison, but does not have the alternating flat pickets.

## Lincoln

Lincoln features 1" x 4" solid board pickets with a picket top point.

## Van Buren

Van Buren is a very versatile gothic-top picket. Available as shown left and below in 1" x 4" boards, (which is standard) or

as shown in the inset at right, with 1" x 6" boards. Both board widths result in an attractive fencescape.

# Custom Cedar

Single-Sided Fence

## Basketweave

The stylish horizontal boards of the Basketweave continue to make this as popular a fence style today as it was when it was introduced in the 60's. Can be stained, as shown in redwood, or left to weather to a natural silvery gray.

## Cleveland

Paired-up traditional gothic pickets assembled in a board on board fashion, alternatively spaced, result in the beauty of the Cleveland. This unique pattern presents unsurpassed elegance.

## Grant

Grant achieves its pattern by the use of paired-up 1" x 4" boards instead of the single boards that are characteristic of the Washington. Also available with 1" x 6" boards.

## Madison

Dog-eared 1" x 4" spaced pickets assembled in a board on board pattern result in the popular Madison. Also available with 1" x 6" pickets, as shown in both photographs at right.

# Custom Cedar

## Monroe

Monroe is a popular choice, featuring a flat board capped top, and vertical board on board pickets.

## Washington

Washington features striking single 1" x 4" flat top gothic boards (not shown), assembled in a board on board pattern.

1" x 6" also available, as pictured at right, middle and left.

## Board on Board Special Sections

Board on board styles can be further customized to create your own look. Left to right: Washington taper, Madison gate, Monroe with crown lattice topper, Monroe with lattice topper.

# Custom Cedar

Board on Board Fence

## Eisenhower

Eisenhower features a 1" x 4" solid board bottom combined with a diamond lattice topper. Heights of bottom section and lattice topper can be ordered in a variety of sizes to customize your

look (4' bottom with 2' top is standard). 1" x 6" boards or a crown top are also available. Eisenhower is available with or without tongue-in-groove construction.

## Hoover

Combine a 1" x 6" solid board bottom with a 1" x 4" solid board top, add diamond accents, and blend together for an American classic style we call Hoover. A classic in any height, Hoover is available

with or without tongue-in-groove construction.

## Jackson

Jackson is the result of combining a board on board bottom with a cedar diamond topper. Shown far left is Jackson, with Cedar Post & Rail. The inset shows a Jackson section and gate.

## Roosevelt

Roosevelt can be ordered in many configurations. Shown scallop at far right, straight as shown to the left, or modified to have a scalloped rail, as in the inset picture at right. It is available with or without tongue-in-groove construction, and made with 1" x 4" or 1" x 6" white cedar boards.

# Custom Cedar

## 4" Square Lattice

Traditionally a favorite for English gardens, 4" Square Lattice is a beautiful accent to any yard and garden.

## 2" Square Lattice

2" Square Lattice is an excellent choice for a stylish semi-private area. Adds a flair of English charm to any landscape.

## Diamond Lattice

Also an excellent choice for semi-privacy, Diamond Lattice looks spectacular when paired with our heavy cedar

arbor, as pictured. The most popular versions are made with 2" or 4" lattice.

## Diamond Scallop Lattice

Diamond Scallop Lattice is a beautiful choice for fence panels as well as accent pieces. Shown far left: Our Canterbury gate is created by using diamond scallop lattice. It is shown inside our heavy cedar arbor, with wing accents. Shown left is a display gate.

# Custom Cedar

## Heavy Lattice Fence

## Diamond Cedar Post & Rail

An excellent choice for property delineation, where privacy is not needed, Diamond Cedar Post & Rail is available in your choice of either two or three rail. Rails are 8' long.

## Round Cedar Post & Rail

Round Cedar Post & Rail is available in one, two, three or four rail. Create fun accents as shown below left in a single rail. See large picture at right for tapered end. Rails are available in 10' or 11' lengths.

## Locust Post & Split Rail

Perhaps the most popular Post & Rail style, Split Rail is always a great choice. Split locust posts and hardwood rails are available in two, three and four rail configurations. Rails are 11' long.

# Custom Cedar

## Straight Stockade

Straight Stockade is by far the most commonly used wooden fencing in today's market. It is economical and offers the homeowner full privacy. Embellishments, such as the straight taper at right, add an architectural element to this style. Available in 4', 5', 6' or 8' heights, with 3/4" thick #1 cedar pickets.

## Scallop Stockade

For a more decorative alternative to the frequently chosen Straight Stockade, try the Scallop version. This is still an economical choice.

## Spaced Picket Stockade

Spaced Picket Stockade Represents the essence of the American Dream... a home with a white picket fence!

Ours team up perfectly with our Cedar Pergola with gate, as shown in the large image at right.

# Custom Cedar

Stockade Fence

## Cathedral Lattice

A Cathedral Lattice topper is always a beautiful addition to any fence section. Here it is shown on a solid board bottom section, with diamond lattice, which is standard. Square lattice is also available. Lattice toppers can be made with 2" or 4" lattice.

## Crown Lattice

Crown Lattice toppers can be paired with all our fence styles to add a formal look. Consider adding it to a lattice, solid, or board on board bottom section. Shown is diamond lattice, which is standard. Square lattice is also available. Lattice toppers can be made with 2" or 4" lattice.

## Straight Lattice

Straight Lattice toppers are an excellent accent to our Fillmore fencing style (shown below in a 2' topper). At right is a 1' topper with a dramatic swept panel. The options are endless! Diamond lattice is standard. Square lattice is also available. Lattice toppers can be made with 2" or 4" lattice.

## Kennedy

Kennedy toppers are available in all the same configurations as the Kennedy fencing style.

Top right: Consider Kennedy as a topper to a stone wall for a New England flavor. Below right: Kennedy Staggered topper. Far right: Kennedy Scallop.

# Custom Cedar

## Clinton Round Dowel Spaced Picket

Clinton features 1¼" round clear red cedar spaced picket spindles and is available in all configurations. Shown is Clinton Straight. This fence style is reminiscent of the romantic Victorian era.

## Bamboo Fence

Bamboo is one of the most versatile products on the market, and these fence styles are a great example of that! A favorite with landscape designers, it is beautiful and long-lasting. Adds an Asian flair to any garden. Available in fencing and gates.

## Safari Fence

This fence style will have you dreaming of warmer climates and building a tiki bar! Also a favorite for Hawaiian settings. Available only as shown, with no variations.

## Finials

Finials add a finished look to your fence posts. Here are examples of our most popular styles. Made of spanish cedar, our finials are available in 4" to 8" diameters. Redwood or mahogany also available. Shown L to R: F100, F101, F102, F103, F104, F105, F106, and F107.

# Custom Cedar

Specialty Fence & Finials

## Deluxe Heavy Cedar Arbor

Handcrafted, deluxe heavy cedar arbors feature 4 ½" x 4 ½" construction. These beauties are an elegant addition to any fence line, make a dramatic entrance to a garden area, and fit into any landscape. Both are available in 3' x 8' widths.

## Heavy Cedar Arbor

Similar to the Deluxe Heavy Cedar Arbor, but made with 3 ½" x 3" construction, the Heavy Cedar Arbor is equally as beautiful. Both arbors are also available with elliptical arches, as shown in the line art drawing at left. Available in widths from 3' to 8'.

## Economy White Cedar Arbor

Our Economy White Cedar Arbor is made of 2" x 4" cedar. It is only available 3 ½' wide. This is an economical way to have the look.

## Cedar Pergola

Cedar Pergolas can be made with your choice of 4" x 4" or 5" x 5" construction. Both are available in 3' to 8' widths. Shown right is a pergola with gate, and at left is a pergola without gate. Custom pergolas to meet your needs are our specialty!

# Custom Cedar

## Sophisticate Line of Deluxe Gates

Available in four styles, the Sophisticate Line combines deluxe styling, expert craftsmanship and fine quality clear red cedar. Gates are available in widths to fit inside our arbors and pergolas, as well as any walkway, entrance, or part of your fenceline. Custom work also available. Gates and arbors sold separately.

## Post Sleeves

Consider adding beautiful mahogany or cedar post sleeves to your fence. Available in 5½" to 11¼" sizes, 4' to 8' high, or custom to meet your needs. L to R: Plain, Fluted, Raised, Double Raised, Fluted, Raised, Raised.

## Cedar Board Gates

Traditional cedar board gates are available with several options including diamond or hole cut-out with lattice. Custom made to your specifications. L to R: Dog-Ear, Scroll, Whale, Scalloped, Cathedral (shown with hole & lattice option).

# Custom Cedar

Deluxe Gate Line, Board Gates & Sleeves

# Accessories

## Posts

Fence posts are available in a variety of styles. Shown in the illustrated box below, from L to R: Flat, Kings Peak, Queens Peak, Pikes Peak, and Chamfered.

## Post Caps

Enhance the look of your fence by topping your posts with decorative post caps. Handcrafted out of cedar, they add value and beauty to any setting.

# Custom Cedar

## Custom Cedar Double Drive Gates

Our custom cedar double drive gates are made of clear red cedar. Cedar and PVC gates can be reinforced with steel frames (as shown at right), are available in many popular designs, or can be custom-made to your specifications. Here are just a few examples of the many beautiful gates available.

# Custom Cedar
